Patient Payment Responsibility

I hereby assign all medical benefits, including major medical benefits, to which I am entitled to be paid directly to Dr. Farhad Niroomand, M.D., P. A.

Since Dr. Niroomand is a contracted physician with managed care insurance plans, we have agreed to file with your insurance plan for reimbursement and to honor your insurance company's fee schedule. However, it is important that you understand that any services **NOT COVERED** by your insurance company will be billed to you. It is ultimately your responsibility to ensure that any services rendered to you are covered by your policy. **Too often we hear, "all I pay is my co-payment and I'm not responsible for anything else." This is false! Some services may not be covered by your plan and some may be subject to a deductible.** You will be responsible for the payment of such services and/or the associated deductible. A few examples of services that may not be covered are: cosmetic procedures (such as non-irritated skin tags, some benign lesions, facial peels, etc...). Feel free to inquire about the cost of any procedure that may not be covered, or subject to a deductible.

If you have any questions regarding coverage, deductibles, etc., please contact the director of benefits at your company or your insurance carrier directly for assistance. If time allows, we will make every effort to verify your insurance coverage on your first visit.

If you are a member of a plan in which you must choose a "Primary Care Physician", it is your responsibility to select such a physician prior to your first visit with us. If you have not done so, your visit may not be covered and you may be responsible for payment in full.

I understand that my insurance company may not cover certain services that I will be receiving from Dr. Niroomand. I also understand that I will be responsible for paying for such services as well as any deductibles and co-payments.

We are currently noticing an increase in all forms of deductibles. Your insurance company may have separate medical, surgical, and laboratory deductibles. If you have a procedure such as a biopsy or removal of a lesion, you may be responsible for the procedure fee in addition to your copayment for the visit. Additionally, you may receive a separate bill from the laboratory, where the specimen is sent for testing. Likewise, if we order blood tests, you may get a separate bill from the facility that draw the sample and run the test(s). Please be advised the bills you receive from the laboratories are separate from invoices issued by our office and must be paid to the company.
